

Interactive Sound2Light Demo

To enjoy the interactive Sound2Light Demonstration, you need to load the included *S2L Demo.s2l* Preset File into the Sound2Light Software, open the *Sound2Light Demo English.esf* on your EOS Console and connect them via OSC as described in the manual. To load the preset, consider the following instructions:

1. Select „Presets“ on the left

2. Select “Load from File”

3. Select “S2L Demo.s2l”
